WORK EXPERIENCE

NSTACK INDIA, Noida— Software Developer

JANUARY 2024 - APRIL 2025 | **React.js, Redux, Tailwind, MUI, GraphQL, Next.js, REST API**

Worked as an individual contributor in a consultant role, developing UI modules and fixing user-reported bugs.

Contributed to key projects including a portfolio app, admin dashboard, and an e-commerce platform.

Wipro Limited, Bengaluru—Software Developer

JULY 2021 - DECEMBER 2023 | **React.js, react-i18n, HTML, CSS, JS, Bootstrap, Redux**

Began as a Frontend Developer building UI components and workflows.

After 6 months, I joined a new team as a React Developer for a server monitoring tool.

Helped migrate from a third-party solution to an in-house React-based tool.

PROJECTS

Quiz Application — [Github](#)

React.js, Tailwind, Jest, Vite, ESLint, Supabase, TypeScript,, Lazy Loading. Redux
Built with React, TypeScript, and Supabase. Features include authentication, role-based access, localization, and responsive UI using Tailwind CSS and Redux.

PG/Flat Search — [Github](#)

React.js, MUI, Vite, ESLint, Supabase, Vercel, SSR, Code Splitting, Redux
A property search app using React and Supabase with location-based filtering, user authentication, saved searches, and mobile-first design.
